Orthoplex White FemmeBiotic™ V-Intensive Stability

FemmeBiotic™ V-Intensive has been formulated strictly for clinical practitioners only and has been designed to deliver exceptional quality by ensuring a guaranteed 15 billion Colony Forming Units in each capsule. To maintain this potency and efficacy it is recommended FemmeBiotic™ V-Intensive be kept refrigerated below 8°C.

However, FemmeBiotic™ V-Intensive has been specifically formulated to allow for transportation outside of a refrigerated environment. FemmeBiotic™ V-Intensive is found to be stable for 7 days out of refrigeration at a temperature of 30°C.

So, whilst transporting with icepacks is desirable, **FemmeBiotic™ V-Intensive sent in unrefrigerated packs, or left out on the shelf, displays no discrepancies with efficacy or potency of the product.**
